Our
communities

Integrated for life

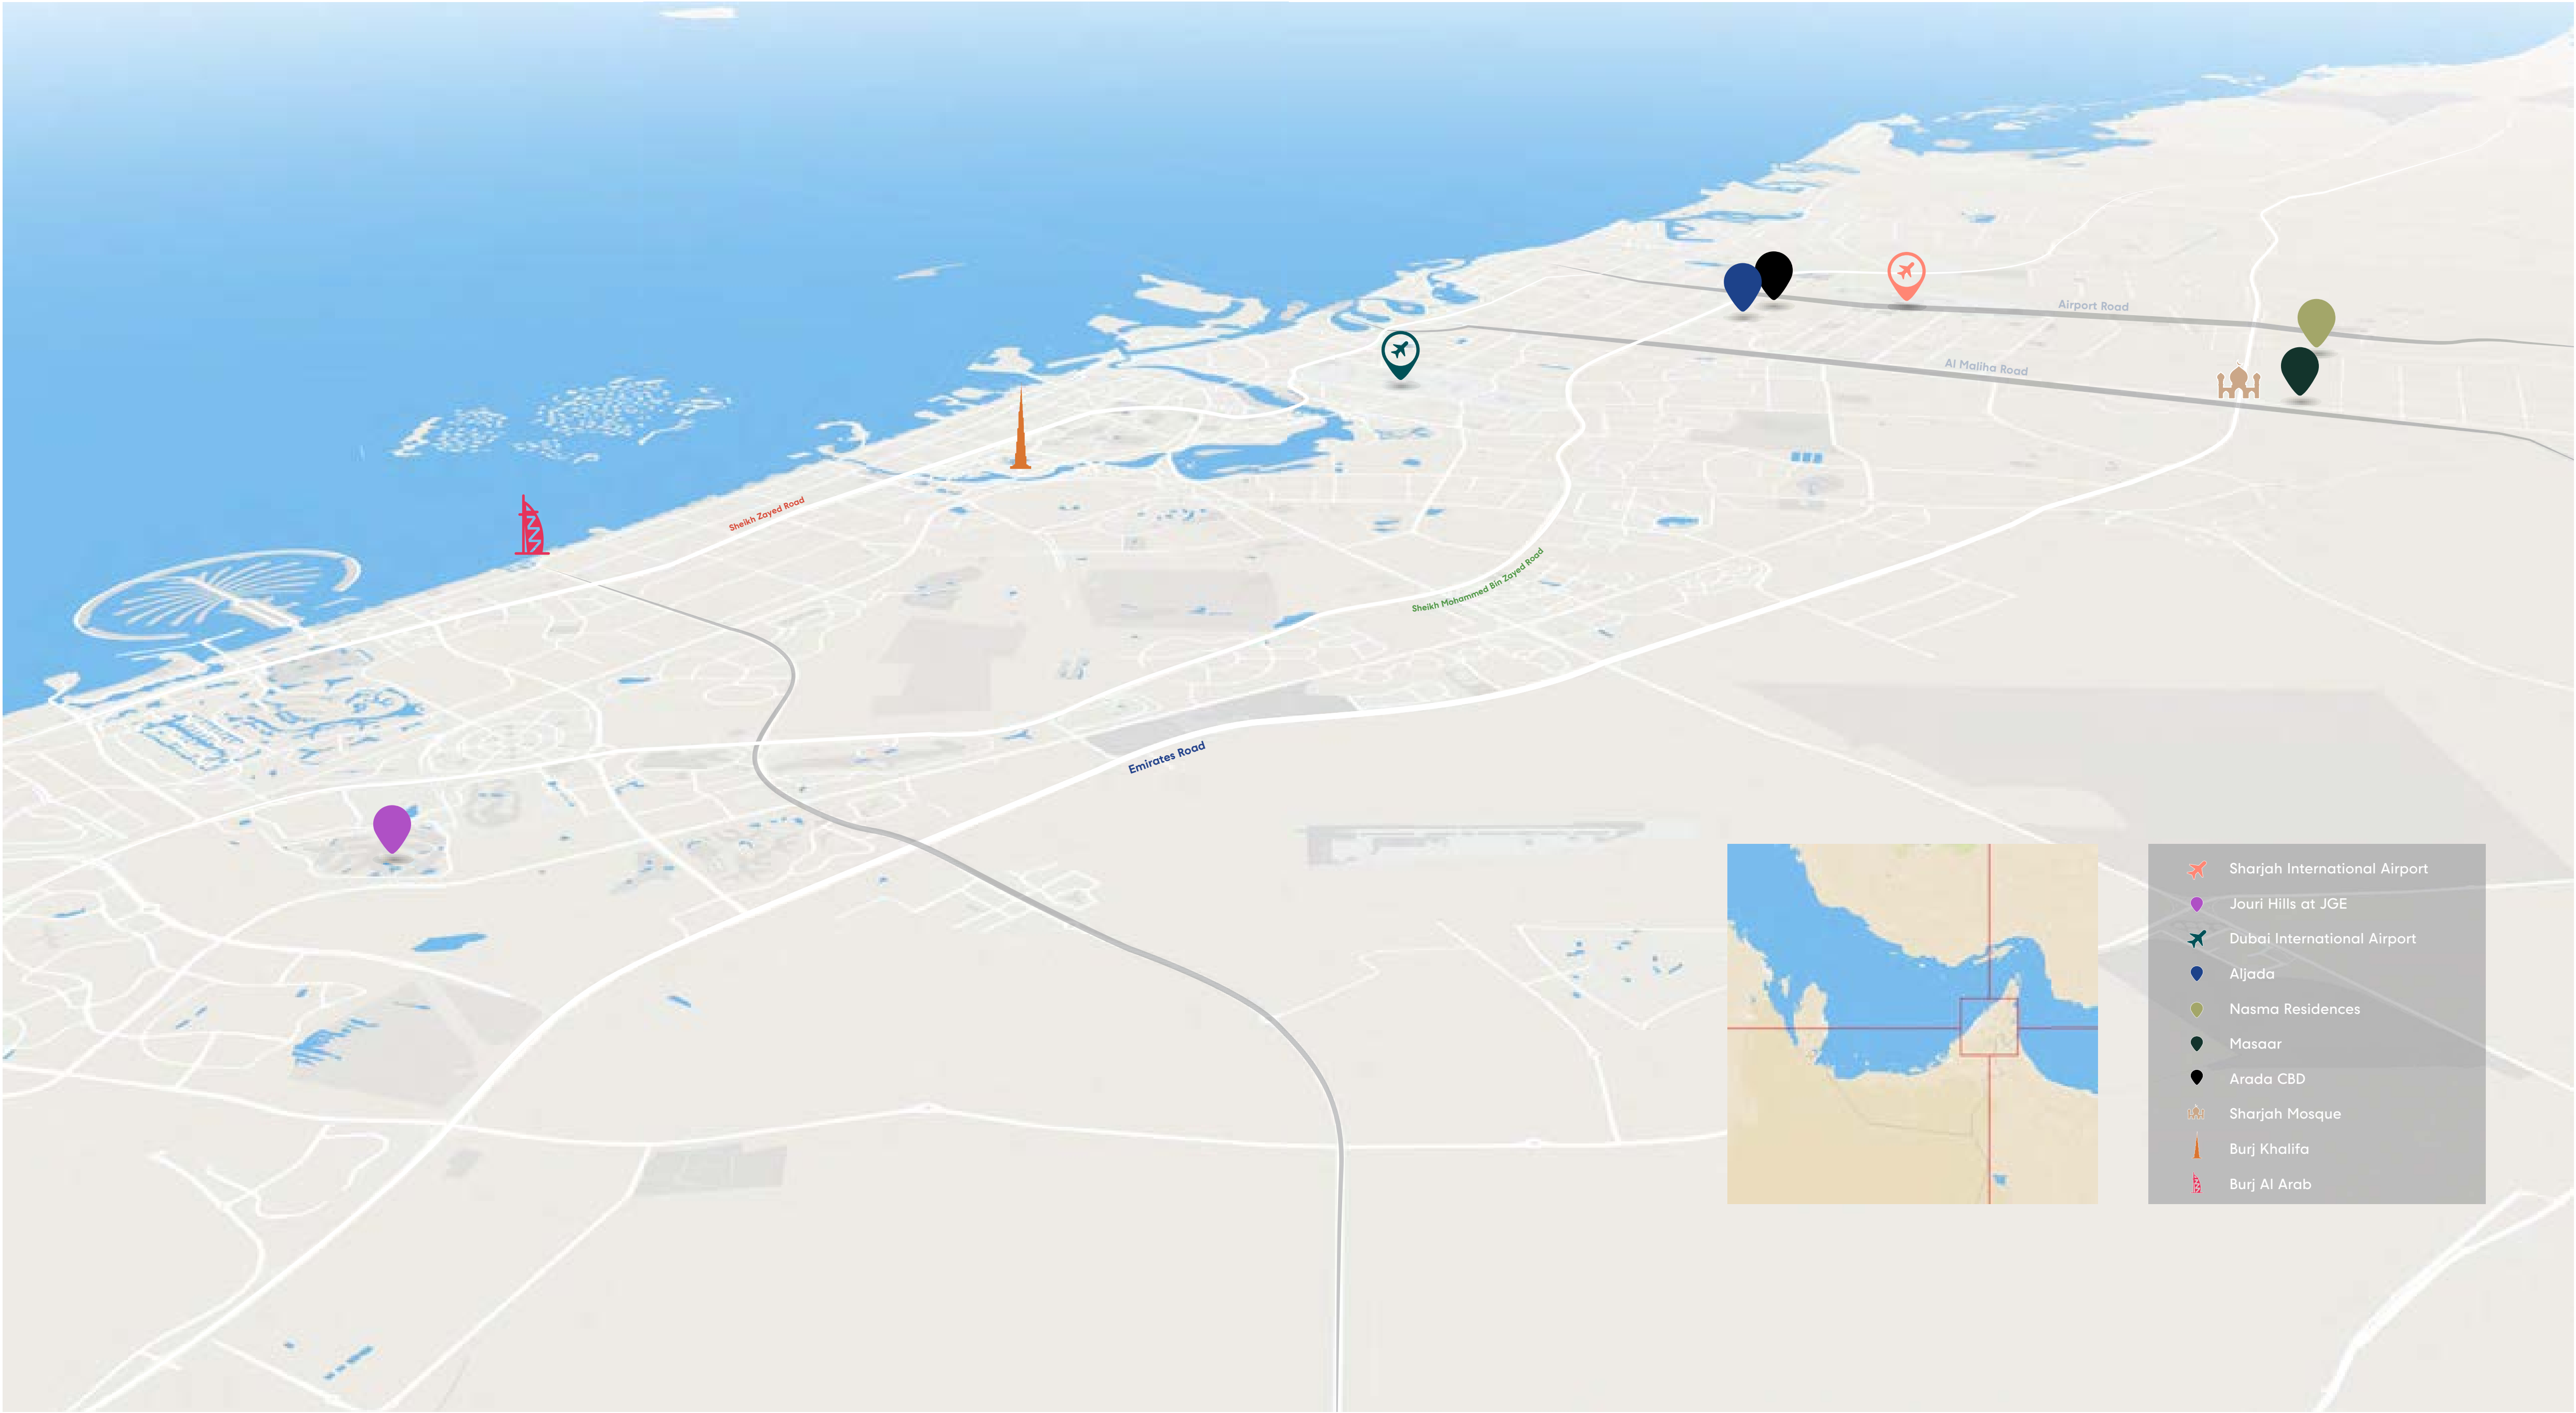

Arada communities are fully integrated, designed around owners and residents.

Our goal is to make sure residents and buyers have everything they need in one location, so they can enjoy a premium lifestyle in exceptional surroundings.

We believe the spaces that surround homes matter as much to residents as the homes themselves. That's why Arada communities also stand out for the exceptional quality of their public spaces, and their lush, green landscaping.

In a changing world, we make every effort to use sustainable building practices and smart technology whenever we can. This approach benefits not just our buyers and residents, but also the local environment as well.

Arada CBD

Arada Central Business District (CBD) is the new commercial center of Sharjah, one of the most vibrant and diversified economies in the Middle East.

Arada CBD consists of a wide range of innovative and flexible workspaces featuring contemporary urban architecture that has been carefully designed to inspire staff and increase their productivity.

The region's first post-pandemic business district, Arada CBD is attracting corporates keen to lease both Grade A and Grade B space from within Sharjah, the wider UAE and further afield, thanks to its ideal location and access to an unmatched range of benefits and offerings.

The signature feature of Arada CBD is the 'green spine' of the district, a forest park that contains shaded walkways and seated areas, while green rooftops and terraces provide ample space for outside meetings, pop up cafes and quiet zones.

Masaar

Launched in January 2021, Masaar is an upscale forested community that sets a new standard for community living across the UAE.

The most distinctive feature of Masaar is the green spine, which connects each of the seven gated districts to the community hub, and which contains more than 50,000 trees.

Designed to provide an active, healthy lifestyle, in a green and leafy environment where residents spend more time outdoors than indoors, Masaar is the UAE's first 'post-pandemic' master-planned community.

Construction on Masaar has already begun, and the first homes are scheduled to be handed over in 2023.
